USA

To: Russound Representatives, Distributors and Dealers
From: Steve Dube, Inside Sales Manager
Subj: Installation of A-H4 A-BUS Hubs with CAV6.6

Do NOT connect A-H4 A-BUS Hub to the CAV6.6

- Connecting the A-H4 A-BUS hub to a CAV6.6 may damage a transistor in the CAV6.6.
- It is recommended to use an A-H2 with the CAV6.6.
- The A-H4 A-BUS hub is suitable for use with all A-BUS systems.
- If a customer has an installed system with an A-H4 connected to a CAV6.6, call Russound for immediate replacement of the hub.

If you have any questions regarding this advisory, please call Russound's Customer Service Department at 1-800-638-8055.
